

YEAR 8 MATHS:

AUTUMN TERM TOPICS

- Multiples and factors
- 2D representations of 3D shapes
- Linear inequalities
- Reverse percentages and compound interest
- Plotting linear graphs
- Circles and sectors
- Compound measures

HOMEWORK

Homework is Predominately set via Sparx (an online platform). The tasks set on Sparx follow the Curriculum map and are tailored to the individual. Pupils can also use Sparx to search for specific topics that they might need support with. Interspersed with this, pupils should expect to get on average two formal written homeworks each half term.
