

## **MyChildAtSchool – MCAS**

We are pleased to provide you details of how to access your My Child At School (MCAS) accounts. All Parents / Carers that have parental responsibility and are Priority 1 contacts with the school will be given an account.

MCAS is a parental engagement app, an extension of our Bromcom software, designed to increase parental engagement and share key information about your child's day to day school. You can view attendance, behaviour points, timetables, overview of homework, calendar and clubs and activities.

You will receive an email from Millais when your child starts at the school - **'Subject: Create Password for your new MCAS account.'**

This email will contain a link for you to create a login password. *Please note this link is only valid for 24 hours.* Please make sure to look out for the email in your inbox or in your junk box.

You can access MCAS through a web browser or using the App by downloading 'MyChildAtSchool Parent App' through your mobile store. Once you have created your login password you can log into 'MyChildAtSchool Parent App' (MCAS) to see your child's information. You will be asked to confirm a 5 digit code which you choose and then re-enter. From here you can then set up biometrics to log in the app. Please note that the information shown on this App is **not in real-time** and **is updated throughout the day**.

If you already have an MCAS account for another child you will see your Millais year 7 student added to this existing account.

To find out more information about MCAS please click here <https://docs.bromcom.com/article-categories/for-parents/>.

If you experience any difficulties, please email us on [office@millais.org.uk](mailto:office@millais.org.uk).
